

Good Shepherd Parish Grade 7 and 8 Service Projects

As the faith of our students grows and matures, it is important for us as parents to teach our children to express that faith through meaningful Christian Service. They must be exposed to the needs of others in our faith community and society, and learn to reach out and respond to those needs in the Spirit of Christ.

This is the time that students in both 7th and 8th grades are required to complete service projects. Four different service projects each year, each a minimum of 2 hours of service and a total of 20 hours. However, several of the persons or organizations have set their own minimum number of hours that students must meet in order to participate. You student may choose activities in which they want to participate, understanding the organization's requirements.

Please be aware that projects must be completed and returned to your child's teacher in order for your student to be confirmed or advance to 8th grade.

Throughout the school year, we will make available to the students announcements of activities which have been approved by the Parish that students may participate in on their own. If, at anytime, you or your students are aware of an opportunity for Christian service which is not listed, you should contact the Religious Education Office for pre-approval of that activity. That way there should be no confusion over what is suitable and permitted in the area of service projects.

There are numerous organizations which could possibly offer opportunities during upcoming months. In order to receive credit, a form should be signed by the person supervising the activity. A copy of the form is linked on this page. For more information or if you have any questions, please contact your child's Religion Teacher.
